July 2003-*

PRESIDENTS MESSAGE.

Several items of importance to all club members happen last board meeting.

1. The board voted for the caretaker Ron Hoebeck to remove all reference of the Lakeside Sportsmans Club from his business website. This was seen as jeopardizing the clubs non-profit standing with the government. Ron submitted his sixty day, (60) notice that he would be leaving the property as the caretaker. This was in accordance with paragraph nine of the Lakeside Sportsman's Club Boundary Creek Occupancy Agreement, which reads. "It is mutually agreed that this agreement is in effect and may be terminated by either party upon a sixty (60) day written notice." Signed by Patrick N. Duncan and Ron Hoebeck on 9/1/1998. The club is now in the process of looking for a new caretaker. Until we have a new permanent person on site we are requesting that any member who is able to spend some time at the campsite please do. Request notify the property manager of myself the dates you plan to be there.
2. Our website is back up at <http://www.the-lsc.org>. **IT IS THE ONLY OFFICIAL WEB SITE OF THE LAKESIDE SPORTSMAN CLUB.** Any and all others are not approved or sanction by the club.
3. NRA membership. Rich Wilson is our contact for joining the NRA and for all members Rich signs up the club receives a percentage of the money collected. Now is the time to join if you haven't already. The Supreme Courts decision may allow us to own handguns but the battle still goes on. Example, the California State Senate is currently reviewing a bill passed by the assembly that would restrict the number of hand gun rounds that one can purchase a month to a max of 50, and with fees and cost that are really designed to prevent only the people who obey the laws from acquiring ammunition. Will not stop the gang bangers.
4. The Club has had some vandalism of our property. Primarily looking for copper wire, most of our wire is aluminum. Recommend everyone make at least one trip a month to check on their RV's.

RATTLESNAKES

Yes it is that time of year again when the club starts having scheduled events and with that the rattlesnakes are out an about. Be careful when walking around the camp or climbing on the rocks around camp.

The board wants to invite all members to attend the board meetings. We look forward to your input on club affairs.

RANGE SAFETY TOPICS OF THE MONTH

Below are just a few things to think about before one chambers that first round of the day.

- Keep your fingers and other parts of your body away from the muzzle, the rear of the slide, and the ejection area of a semiautomatic pistol.
- In the event of a misfire, keep the firearm pointed in a safe direction, remove your finger from the trigger, wait ten seconds, then eject the cartridge and dispose of it properly.
- If you hear an unusual sound upon squeezing the trigger or feel an unusual recoil, stop shooting and investigate. You may have experienced a "squib" load (or under-powered cartridge), and it may have caused a bore obstruction. Keep the firearm pointed in a safe direction, remove your finger from the trigger, wait ten seconds, then unload the firearm and safely examine the barrel, checking carefully for any possible obstructions before reloading and resuming shooting.
