

Lakeside Sportsmans Club **THE BULLETIN**

– May 2010 –

President's Message

It's that time of year, it comes only once a year and it's called the **Memorial Day Deep Pit BBQ**. John F Kennedy said in an inaugural speech something I came to admire. My take on what it was is; **Ask not what your Club can do for you, ask what you can do for your Club**. All I ask is for you to come on out for the annual fund raiser for the Club and help support our maintenance and upkeep. Some of our members are not able to come on out for the shooting events or the occasional work parties because of their busy schedules and such. This is one of those no brainers. You get a great meal for a wonderful price, donate a few dollars for some very nice prizes in our raffles and visit with some old friends you haven't seen for a year or so. While you're at it, you can bring along some of your friends and neighbors so they can scope out our wonderful location and facilities. Who knows, they may want to become members themselves. We still need raffle prizes so please step up and let me know what you can help out with. Rick and Joanne are awaiting the arrival of their new home so they are out and about right now.

We have a work party scheduled for this coming weekend and what's left to do is not terribly physically demanding. A lot of the grass has been mowed thanks to Clint Schultz, the BBQ pit has been cleaned out and the rocks are ready to be

The grass is mostly mowed (thanks to Clint Schultz) and we have a new sign (thanks to our talented caretaker, Chris Donofiro). Come to the work party this weekend and continue the good work. Visitors will enjoy the pride we have in our property.

placed back in the pit, thanks to Rick Norfolk and Chris Donofiro. There is still some grass to be mowed and whacked, the clubhouse needs cleaning as well as the restrooms so please bring some of your equipment to help us get the job done. We will have a pot luck dinner at the clubhouse Saturday P.M. and Wayne Kline will prepare his delicious break-

fast on Sunday for those who stay the night. Watch out for snakes because there have been a few sighted around the camp. So far they have only been gopher and garter snakes, but the rattlesnakes are probably around also.

The Board of Directors passed a resolution for those non club activities wishing to use our club facilities. The reason for the resolution is because some of our members were inadvertently preempted from using the range when an unannounced outside activity was sponsored by one of our club members without previous notification. We want the members to be well informed in advance when the range might not be available for their use. The resolution reads:

That any outside group requesting use of the range will be required to provide indemnification, insurance, a Range Safety Officer, the RSO's qualifications, the reason for the event, and any additional information requested by the Board. In addition the sponsoring

member, and a member of the outside group must appear before the Board at least 60 days prior to the event.

It is our desire that we avoid any disruption of our members use of the range in the future and apologize for any inconvenience.

The fishing contest was essentially a no show, for the fish as well as members. We had three members and no fish to weigh. The weather was fantastic

after the sun came out. I had to wade across snow to get to the bank to fish. Most of the time there wasn't even a ripple on the lake because there was no wind. I received one of

Come rain, SNOW, or foul weather... the Fishing Contest goes on. Where were you?

those sunburns on one side like in the movie "Close Encounters of the Third Kind". So now we know if the weather is great the fishing is lousy. At least that's my experience, such as it is. The good news is that we won't have the expense of any trophies for next year's Annual Meeting.

The Annual Meeting for the Inter-Club Trap Schedule was held recently and a tentative schedule was published. Our group now includes the club from Imperial Valley which is scheduled to host in March of 2011. Project 2000 will not be in the rotation for this year. I'm not really sure what's going on there. Here's the schedule so far:

Escondido	June 27, 2010
Lakeside	August 29, 2010
Lemon Grove	October 30, 2010
Palomar	January 29, 2011
Imperial Valley	(?March 2011)

MORE TO FOLLOW.
